DECLASSIFIED AND RELEASED BY
CENTRAL INTELLIGENCE AGENCY
SOURCE METHOD EXEMPTION 3B2B
NAZI WAR CRIMES DISCLOSURE ACT
DATE 2007

1. Forwarded under separate cover are the following:

Enclosure A. The approved QKBOIL T/O and a list of unslotted contract agent positions for which personnel have been or currently are being recruited.

Enclosure B. A list of the personnel (pseudonyms) slotted against the T/O and the contract agent positions with biographic data on each.

2. For the present, the propaganda staff is to be located in ICFLAKH. These three, slots 20 through 22, are assigned as technicians for the propaganda staff and are scheduled to depart for LCHRENN approximately 25 September. The first twenty agents for infiltration will be trained in JBUCHER in November-December. The majority of the training staff will be located in JBUCHER until training sites are set up in KNUJUECO.

4. The following are our ideas on cover for the staff. Ideally, all staff officers and their secretaries, should be established under the same cover in one place. If it is not possible to set up such a cover, the following minimum personnel, slots 1-6, 12-14, 27, should be established under one cover. (Slots 12-14 should be under official cover because of the nature of the work.) One cover for the minimum staff will make possible greater security and efficiency. The cover should be firm and should allow a certain amount of freedom and latitude of action. Your advice and comments on the possibility of establishing a cover of this type are greatly desired.

5. It is requested

5. It is requested that consideration be given the cover problem as soon as possible in order that an initial cadre, personnel in slots 5, 25, 32-24, 37, may be dispatched to the field in October, provided relations with the local service are such as to permit the prompt activation of the OKEMOIL headquarters at OKGUAVA. Coordination with the field station will be effected prior to dispatch of personnel, and the build-up to full strength will be accomplished gradually.
